

Objective

Publish a static HTML site

Setup

- a. Create an account with Vercel
- b. Install NodeJS
- c. Install Vercel CLI
- d. Create a repository for your HTML/CSS documents

Workshop

In this workshop, we will publish the HTML/CSS documents that you have created to a hosting website.

Use the Vercel CLI to create a Vercel app and push it Vercel.

Submission

Check in your HTML/CSS to github.

Paste your website's URL to the class' Slack channel
